

✓ IRAPON 98

Chemical name : Ethylene Glycol Distearate

Features

IRAPON 98 is a pearlising, softening and viscosity enhancing agent in cosmetic formulation such as detergents, shampoo, hand cleaners and creams and other cosmetic.

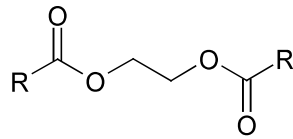

Applications

Pearlised shampoos, bath cleansers, pearlised hand washing liquids, pearlised liquid cleaners and dishwashing Liquids

Storage and stability

IRAPON 98 will be stable in closed drums and temperature between 5-40 °C until 12 month after date of production.

Physicochemical properties

Appearance (25 °C)	White flake
Melting point (°C)	54-61
Acid value	5 max
Mono ester	5 % max
Total ester	99 % max
Saponification value (mg KOH/g)	170-195
