

# TECHNICAL DATA SHEET (TDS)

Product Name: RETANIL

Chemical name: n-Alkyl Dimethyl Benzyl Ammonium Chloride

Document code: PSJ-RD-FR-12-00

Revision number: 01  
Revision date: 99/11/07

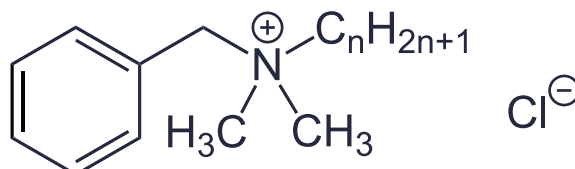

## COMPANY IDENTIFICATION

Manufacturer: PADIDEH SHIMI JAM CO.

Tell: +98(21)88580000

Address: No.16, Western Fourth Golbarg St., Baharestan St., Dadman Blvd., TEHRAN, IRAN

## CHEMICAL STRUCTURE

## PHYSICOCHEMICAL PROPERTIES

Appearance	Clear liquid
Actives, %	Min. 49
Solid %	Min. 50

## FUTURES

1. Biocide
2. Cationic surfactant
3. Phase transfer catalyst in the chemical industry
4. Biodegradable

## APPLICATIONS

Oil and gas industry, water purification, aquaculture, paper industry, textile industry, leather industry, chemical industry, polymer and coating industry

## STORAGE & STABILITY

It is recommended that **RETANIL** be stored in sealed containers and kept at temperatures 10-40°C. Avoid freezing or overheating.

**RETANIL** can be stored for at least 24 months

Issue date: 28 AUGUST 2021
